

INSTRUCTIONS FOR LASER DARK TRANSFER PAPER (Self-Weeding)

Pre-printing

- ◆ The selection of laser printer.

Should use the laser color printer with white toner like OKI C711WT, because the difference attributes for Toner, this paper can not apply any other laser printer.

◆ “Self-Weeding” have A(Blue Back Label) and B(Grey Back Label). A paper is printing paper, while B Paper is transfer film and the size is smaller than A, so that we can peel B off A smoothly.

- ◆ We should choose “Heavy” in print attribution. When you print the paper, it should be mirror printing.
- ◆ Please pre-adjust the temperature to 160°C-170°C and the time to 60s-70s in a high press, finally depending on your own press machines.

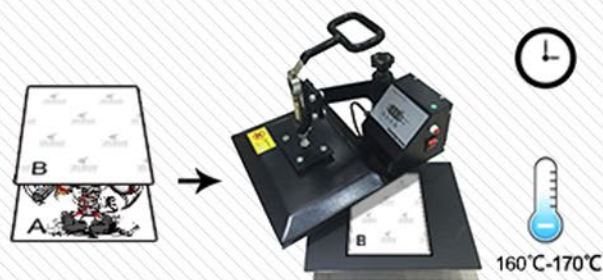

Transfer Steps

+

1. Print the picture on the front side of A with mirror printing.

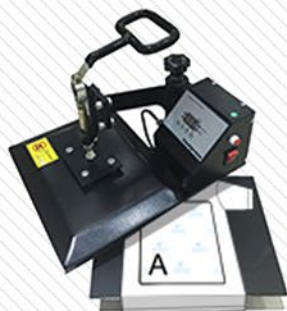

2. Put B front side onto A front with pattern (must keep the back labels outside), then overlap. (A paper with pattern must be completely covered by B paper).

Adjust the temperature to 160°C-170°C, and put overlapped AB paper onto the plat, then press for 60s-70s.

3. When time's up, peel B off A rapidly without leaving the flat (Hot Tear). Must be quick within 1s-3s. If there has remaining glue on the edge of A, you need to cut off edge and throw away B paper.

4. Reset the time to 10s-15s and keep temperature and press constant, then put the T-shirt onto the flat and put A (Printing Side) onto the T-shirt, the blue back label is outside.

5. When time's up, after several seconds (10s-15s), peel A off the T-shirt. (Warm Tear), Transfer finished.

Tips

1. We have cut B paper (gray back labels) into smaller compared to the full-scale. That is when you put B onto A paper, you still can see A paper circles.
2. Tear off B paper without leaving the hot plate! Hot tear!
3. After you take the T-shirt off the ironing board and leave it for cooling 10-15s, you can Tear off A paper.
4. After transferring, you still need to cover the release paper and press 3-5s to enhance the fastness.
5. This products is only can be printed by color laser printers.
6. Wash after 24hours. When you wanna hands wash, please do not rub the pattern. You would turn over the clothes and the pattern will be inside.
